

TANISHQ DAS

AI & Machine Learning Undergraduate | AI/ML Engineer | VIT Bhopal University (2027)

+91 9407387483 | tanishqdas2005@gmail.com | Bhopal, MP | linkedin.com/in/tanishq-das-698750289 | github.com/TANISHQDAS

SUMMARY

AI & Machine Learning undergraduate with hands-on experience building and deploying deep learning and computer vision systems, including CNN-based disease detection models and Generative AI applications using LLM prompt engineering. Skilled in Python, TensorFlow, and Flask, with a track record of shipping end-to-end ML projects from model design through deployment and REST API-based serving. Comfortable across the ML lifecycle – data preparation, model training, evaluation, and cloud-based deployment. Motivated to apply AI to real-world problems in healthcare and agriculture.

EDUCATION

VIT Bhopal University

Bhopal, MP | 2023 – 2027 (Expected)

B.Tech, Computer Science and Engineering - Artificial Intelligence & Machine Learning (CGPA: 8.17/10)

TECHNICAL SKILLS

Machine Learning & DL: Machine Learning, Deep Learning, Computer Vision, CNNs, Model Optimization, Transfer Learning, Hyperparameter Tuning, Model Evaluation, Supervised Learning

Generative AI & NLP: Prompt Engineering, LLMs, Vertex AI, Gemini API, Streamlit, Natural Language Processing (NLP), Neural Machine Translation

Programming & CS: Python, C++, Java, Data Structures & Algorithms, Object-Oriented Design, Algorithm Design, Complexity Analysis

Frameworks & Tools: TensorFlow, Flask, NumPy, Pandas, Scikit-learn, REST APIs, MATLAB, Microsoft Excel, Git, Windows, Linux

Learning / Familiar: Docker, PyTorch, MLOps basics, Google Cloud Platform (GCP), Model Deployment & CI/CD for ML

EXPERIENCE

Advanced Soft Engg and AI Foundation Intern

May 2026 – Aug 2026

MPOnline Limited

- Participated in the development of PawTrack, a web application which caters to pets' health management. Mainly concentrated on applying software engineering principles along with the essential aspects of AI in the project.

Front-End Web Development Intern

Sep 2025 – Oct 2025

IBM SkillsBuild (Edunet Foundation)

- Developed a responsive Task Manager website using HTML5, CSS3, JavaScript, and Bootstrap to allow users to efficiently organize, track, and manage daily tasks and workflows.
- Designed clean UI components and intuitive user interactions, serving as front-end web interfaces for machine learning and web application deployments.

AI/ML PROJECTS

FarmGuard Pro - Plant Disease Detection System

Sep 2025 – Oct 2025

Python, TensorFlow, CNN (ResNet), Flask

- Designed a CNN (ResNet) architecture achieving 94% accuracy recognizing 30+ plant diseases across multiple crop species; deployed via Flask API on Google Colab (ngrok) for real-time predictions.
- Implemented and optimized model training and inference logic using object-oriented Python design principles.

Skin Disease Detection System

Python, TensorFlow, CNN, Flask

- Built a CNN-based deep learning model for automated 8-class skin disease detection from dermoscopic images, using data augmentation, transfer learning, and hyperparameter tuning.
- Deployed the trained model in a Flask web application allowing users to upload images and receive real-time predictions.

Codelens - AI Code Review Tool

Python, Flask, Gemini API

- Built an AI-driven code review app using the Gemini API and algorithmic syntax analysis to flag bugs, quality, and security issues, with an interactive editor and automated reports.
- Designed core data structures for efficient source-code parsing and integrated user authentication for the review workflow.

CERTIFICATIONS

- Machine Learning with Python (V2) – Coursera
- Prompt Design in Vertex AI – Google
- Data Science with Python – Finlatics
- GenAI Apps with Gemini & Streamlit – Google
- Google Cloud Generative AI – SmartInternz

CORE COMPETENCIES

Analytical Problem-Solving • Algorithmic Thinking • Model Debugging & Optimization • End-to-End Project Ownership • Team Collaboration • Technical Communication • Attention to Detail • Self-Directed Learning • Time Management • Adaptability to New Tools & Frameworks • Critical Thinking • Fast Prototyping • Research & Experimentation

CODING PROFILES

LeetCode: 1,480 | CodeForces: 1,627 | CodeChef: 1,918
